

CHICAGO MATTRESS COMPANY

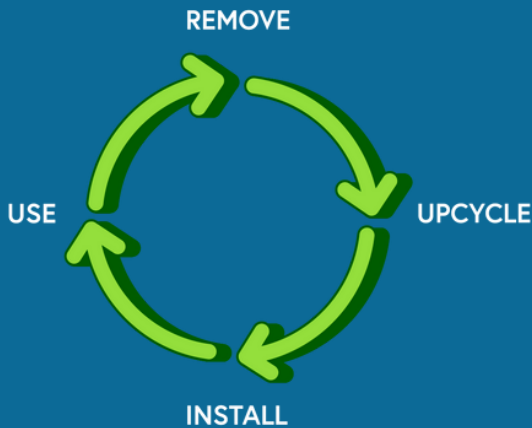

Hospitality Green

Chicago Mattress Company is recognized as North America's premier mattress upcycler, providing the most cost-effective, durable and environmentally sustainable choice for the hospitality industry. We offer double-sided, long-lasting, thick, comfortable mattresses that are built using state-of-the-art health, safety and environmental practices. Our high-value mattresses are priced well below traditional manufacturers.

The High-Value, Reliable Sleep Solution

For 26 years, Chicago Mattress Company has hand-built mattresses and box springs using quality components from America's top-tier mattress retailers and premium hotels. We upcycle these materials to produce mattress sets with prices well below traditional manufacturers.

Our mattresses have all the comfort, look and feel of high-priced, hospitality-grade mattress sets at a fraction of the cost. Every model meets the same health and safety standards established for new mattresses.

Our upcycling process prevents millions of tons of material—much of it toxic and most of it not biodegradable—from being dumped as landfill waste. The usable components are harvested to create our high-quality products. With costs increasing across-the-board, we offer a unique, affordable way to meet your mattress replacement needs while enhancing your current sustainability efforts.

What We Do

- Back products with a 5-year, 100% exchange warranty
- Provide responsible removal and transport of existing mattress sets
- Offer affordable custom-sizing options
- Provide quick-order turnaround and flexible delivery
- Ensure exceptional customer service

EASY, ECONOMICAL, ENDURING

Our Hospitality Green Attributes

- Value and endurance
- Two-sided to maximize mattress lifespan
- Fully inspected, pre-compressed resilient foam and densified fiber cushioning layers
- Expertly selected, hospitality-grade inner spring support systems
- Specially identified, premium supportive cushion materials
- All-new luxurious, durable quilted knit covers
